Thank you!

Thank you for your continued support by following 9to5Linux on social media, posting comments, liking and sharing the articles, as well as for sending tips and suggestions. I would also like to thank all our current and past donors and sponsors for keeping the website alive.

This week we celebrated Debian's 30th anniversary, enjoyed new OpenMandriva Lx and Devuan GNU+Linux releases, and updated our systems to the latest GNOME, KDE, and Budgie releases.

On top of that, we took a first look at the new features coming to the OBS Studio 30 app. Below, you can read this week's hottest news and access all the distro and package downloads in 9to5Linux's Linux weekly roundup for August 20th, 2023.

Hot news of the week

Linux distributions released this week

Linux apps, drivers, desktops, and kernels released this week

Coming up next week

LibreOffice 7.6

Linux kernel 6.5

...and hopefully many other exciting Linux news and releases!
